Maurizio Novelli: The Fed must reflate a system in crisis but it will create instability.

You can read the last outlook of Maurizio Novelli, Lemanik's Italian stock manager, here: https://urly.it/3_93k

Maurizio Novelli

With more than 35 years of experience in portfolio management and proprietary trading, Maurizio Novelli trained at the International Financial Program at Princeton, with an MBA in International Finance and a Master in Economics at Bocconi University. In 2007 he launched one of the first Luxembourg UCITS funds with a Global Macro strategy, of which he is currently the Senior Portfolio Manager, boasting one of the longest track records in the asset class.
